Enthusiastic Organic Chemistry postgraduate with a strong research background and a keen interest in experimental design, analysis, and innovation-driven discovery.

PROFILE SUMMARY

A recent Master's graduate in Organic Chemistry with a solid academic foundation and a deep enthusiasm for scientific research and problem-solving. I am eager to launch my professional career in a dynamic organization that fosters innovation, continuous learning, and personal growth. Seeking an opportunity where I can apply my chemistry expertise, analytical abilities, and commitment to excellence while further developing my technical and professional skills.
