3. The Teaching Departments of the University / University Conducted Colleges / Affiliated Colleges of the University shall have holidays as per Table-2 and shall not have the holidays declared by the State Government or the District Collector. However, the Vice-Chancellor shall have the power to take decision in this regard.
4. Span of Examination be curtailed to have enough time for evaluation and the publication of results in time so that the admission process could be speed up and completed in time, to have students presence in the campus for teaching as per schedule. For this, the time span allotted for examinations shall be strictly followed by Examination Section.
5. The admission of the First Semester of Engineering Courses are governed by D.T.E., Mumbai and take couple of weeks for completion of admission process which results in late commencement of actual teaching. Hence, it is recommended to extend 1st Session to observe 90 teaching days. Vacation and Examination will be adjusted accordingly by the College, Examination & Evaluation Section of the University. Accordingly, the change should be brought to the notice of the University.

Our mission

Our mission was spelt out long ago by the founder of the Shivaji Education Society, Bhausaheb Dr. Panjabrao Deshmukh. "Let us work hard", he had said, "for the comprehension of scientific facts for the greatest good of the country. We shall bridge the wide gap that exists between the laboratories, and the fields." The farmer, for Bhausabeb, was the visible face fin the destitute, unprivileged Indian who toiled on the farms and in the factories. Sunk in superstition, the peasant carried the burden or an exploitative society on his frail shoulders.

Our mission, then, is to provide strength to the arms and mind of this Indian with the transforming force of education, to create, scientific temper which kills fear and quickens curiosity. We are alert to the double-edged nature of youthful energy, and are committed to harness their boundless enthusiasm and creativity for the mammoth task of nation building. We are in mission mode, and have created a facility for achieving excellence in education through he application of basic science and state of the art technologies. We are committed to encourage research and to upgrade our tools and to place our society at the supremely progressive position.

GOALS & OBJECTIVES

Along with the goals and objectives of our parent body, the Shri Shivaji Education Society Amravati, our college has its own goals and objectives as :

- To create, widen and strengthen the interaction among the students, teaching community, scientists and the industries, and to serve the community through coordinated research and hardwork.
- To create and nurture scientific temper among students.
- To create among- students a desire for consistent research and inquire;
- To deliver sustained, high quality education in the most congenial manner.
- To prepare students for fostering global competency.
- To promote use of ICT in every area of education.
- To bring about PPP (Public-Private Participation) for the growth of the emerging sciences:
- To inculcate creativity, leadership qualities, moral values and enterprise among students.
- To make students aware about how to manage knowledge collectively and work in multidisciplinary team.
- To generate among students a multi-disciplinary perspective, knowledge management skills, and the team-work.
- To help the students to evolve into sensitive, enlightened citizens to participate in National development.

Vision

"Now here you see, it takes all the running you can do, to keep in the same place, if you want to get somewhere else, you must run at least twice as fast as that"
(The red Queen to Alice in *Through the Looking Glass* by Lewis Carroll)

The domains of academia have opened up and strong market winds have begun to blow through in portals. Foreign universities are entering in droves and private business houses are at their drawing boards, planning out strategies to enter the education market in a big way. Critics may carp at what they call the commercialization of education, but pragmatists know that with India joining the world full steam, you either raise the bar or perish.

We have always believed in raising the bar. All minds were put together, and as a result we have been following a major year by year road map. We have high quality assets with us in our teachers, a supportive parent society, a good infrastructure and reputation that takes an age to build. We have been putting these assets to use in an annually distributed pattern to upgrade ourselves in the following areas.

- * Academic Improvements'
- * Strengthening of Laboratories.
- * Promotion & Use I.C.T. in teaching and learning process.
- * E-content development.
- * Establishment of Central Instrumentation facility.
- * Establishment of Study Centre.
- * E-governance promotion.

Our vision for the betterment of the institution, welfare of the students and Community has no limits..

The woods are lovely dark and deep !

But I have promises to keep,

Miles to go before I sleep

Miles to go before I sleep
