Syllabus prescribed for certificate course in Analytical chemistry.

Theory:

Unit I: Ionic bonding, lattice energy, solvation energy, solubility of ionic compound covalent bonding, polarity of covalent bond, polarization, intermolecular forces, hydrogen bonding. Properties of liquids: Viscosity, surface tension, refractive index, optical activity method.

Unit II: Electrolyte, non electrolyte, ionic equilibria, Ostwald dilution law, common ion effect, solubility product, acids and bases, Arrhenius concept, hydrolysis of salt, P^H concept, P^H of solution, buffers.

Unit III: a) Fats and oils: Natural fats, edible and industrial oils of vegetable origins, rancidity, saponification and iodine number of oils, hydrogenation of unsaturated oils.

b) Cleansing agents, surfactants common soap additives, cleansing action of soap and detergents.

c) Food adulteration : common adulteration in food material.

Unit IV: a) Analytical chemistry: Introduction to analytical chemistry, laboratory note books, selecting and handling of reagents.

Data analysis: significant figure, errors, precision and accuracy, method of expressing precision and accuracy.

b) Important conc. Terms standard solution primary standard sub.

c) Common laboratory apparatus. i) Analytical balance, apparatus for volumetric analysis

Unit V: A) Titrimetric analysis- acid base titration, Tachometric, equivalent weight of acid and bases, acid base indicator.

B) Redox titration – Redox reaction, electrode potential, use of potassium dichromate, iodine in redox titration, equivalent weight of oxidant and reductant, Indicator in redox titration.

Syllabus prescribed for Diploma course in Analytical chemistry.

S. B. Incharge

Theory

Unit I : A] Precipitation : Precipitation equilibria ,precipitation, indicators in Precipitation titration .B] Complexometric titration: Complexes , chelate, chelating agent , Complexometric titration involving EDTA , metallochrome indicators .

Unit II : Gravimetric analysis , apparatus for gravimetric analysis , principle and steps involved in gravimetric analysis , use of organic reagents in gravimetric analysis , co-precipitation and post precipitation .

Unit III : A] Conductometry : Principle , technique and applications.

B] Colourimetry : Principle , technique and applications.

C] Electrogravimetry : Principle , technique and applications.

Unit IV : A] Potentiometry : Principle , technique and applications.

B] P^Hmetry : Principle , technique and applications.

C] polarometry : Principle , technique and applications.

Unit V : A] chemical analysis and assay of some important biological compounds i) Carbohydrates ii) Amino acids and proteins iii) Lipids

B] Fermentation : Aerobic and anaerobic fermentation , production of i) alcohol and citric acid ii) Antibiotics such as penicillin , chloromycetine and streptomycine iii) Lysine , gultamic acid , vitamin B₂ and B₁₂

Practical :

1] Estimation of chloride by Mohr's method

2] Estimation of AgNO₃ by Volhards method

Incharge

- 3] Estimation of Zn^{2+} by complexometric titration
- 4] Determination of total and permanent hardness of water by complexometric titration
- 5] Determination of Ca^{2+} and Mg^{2+} content of soil by complexometric titration
- 6] Determination of Ca^{2+} and Mg^{2+} in milk powder by complexometric titration
- 7] Estimation of Ba^{2+} as BaSO_4 gravimetrically
- 8] Estimation of Cl^- as AgCl gravimetrically
- 9] Estimation of Cu^{2+} as Cu-CNS gravimetrically
- 10] Estimation of Ni^{2+} as Ni-DMG gravimetrically
- 11] Estimation of iron in oxide ore gravimetrically
- 12] Determination of an organic acid by silver salt method
- 13] Analysis of brass Cu iodometrically and Zn by EDTA
- 14] Analysis of dolomite
- 15] Determination of strength of acid / mixture of acid by conductometric titration
- 16] Determination of strength of acid by potentiometric titration
- 17] Determination of pK_a of acid by potentiometry
- 18] Analysis of aspirin by potentiometric / conductometric method
- 19] Determination of mixture of halide by potentiometric method
- 20] Titration of phosphoric acid by standard NaOH potentiometrically
- 21] Preparation of different buffers and measurement of their pH using pH meter
- 22] Estimation of $-\text{OH}$ group in given organic compound
- 23] Estimation of $-\text{NH}_2$ group in given organic compound
- 24] Estimation of $-\text{CONH}_2$ group in given organic compound
- 25] Estimation of $-\text{CHO}$ group in given organic compound
- 26] Estimation of $-\text{NO}_2$ group in given organic compound
- 27] Analysis of hair oil / hair dye.
- 28] Analysis of cream.
- 29] Purification of common organic solvents (Distillation / vacuum distillation / steam

G. Jais

Syllabus prescribed for Advanced Diploma course in Analytical chemistry

Theory

Unit I : A] Colorimetry and spectrophotometry : Laws of light absorption , Lamberts-Beers law , derivation from Beers law , instrumentation , photometric titration , simultaneous spectrophotometric determinations , Beers law range,

B] UV- spectroscopy: Principles and applications

Unit II: A] Flame photometry : Principle , instrumentation techniques and applications.

B] Atomic absorption spectroscopy: Principle, instrumentation techniques and applications.

Unit III: A] Chromatography: Adsorption column chromatography, paper Chromatography, TLC, Gas chromatography, HPLC (Principle, techniques and applications.)

B] Solvent extraction: Principles, extraction of metal ions, extraction of natural products.

C] Ion exchange methods: Principle, methods and applications.

Unit IV: A] IR spectroscopy: Principle, and applications in analysis.

B] NMR spectroscopy: Principle, and applications in analysis.

C] Mass spectroscopy: Principle, and applications in analysis.

Unit V : A] Water analysis : Sample collection , physical examination , chemical examination of water , dissolved oxygen , BOD , COD .

B] Soil analysis : Sample collection , chemical analysis to find PH, soluble salt , salinity, Ca,Mg contents N,K,P and micronutrients contents of soil .

C] Drug analysis : Narcotic and dangerous drugs, classification of drugs , screening by gas and TLC and spectrophotometric measurements .

Practical

1] Determination of λ_{max} for certain solutions (KMnO_4 , $\text{K}_2\text{Cr}_2\text{O}_7$, CuSO_4 , CoSO_4)

2] Verification of Beers law.

3] Determination of Cu^{2+} as $[\text{Cu}(\text{NH}_3)_4]^{2+}$ complex colorimetrically / spectrophotometrically.

4] Determination of Fe^{2+} as 1, 10 phenanthroline complex colorimetrically .

5] Determination of manganese in steel colorimetrically.

6] Determination of nitrate in water .

- 7] Determination of P_k of an acid base indicator colorimetrically / spectrophotometrically.
- 8] Photometric titration (static) estimation of Fe^{3+} in solution by photometric titration with EDTA .
- 9] Simultaneous spectrophotometric determination of manganese and chromium in mixture of $KMnO_4$ and $K_2Cr_2O_7$.
- 10] Determination of metal ions $Na^+ / K^+ / Li^+ / Ca^{++} / Mg^{++}$ by flame photometry.
- 11] Separation and estimation of metal ions by paper chromatography.
- 12] Separation and estimation of metal ions by ion exchange method.
- 13] Separation and estimation of metal ions by solvent extraction method .
- 14] Separation and estimation of halide by ion exchange method .
- 15] Separation of spinach extract by column / paper chromatography .
- 16] Estimation of phosphoric acid in Cola drinks by molybdenum blue method .
- 17] Analysis of physical parameter of water colour, odour , taste , pH, conductivity, TDS.
- 18] Analysis of chemical parameter of water .
- 19] Analysis of soil samples pH, available N,P,K& micronutrients and identification.
- 20] Separation of amino acids , organic compounds, by TLC / paper chromatography.
- 21] Separation of sugar by paper chromatography.
- 22] Determination of moisture content by Karl Fischer apparatus.
- 23] Determination of Ca/Fe/P in milk powder.
- 24] Determination of Ca/Fe in cement.
- 25] Estimation of N,S, halogen in organic compound.
- 26] Structural elucidation of organic compounds on the basis of UV,IR,NMR and mass spectrometry (minimum 10 compounds)
- 27] Spectrophotometric determination of lead on leaves using solvent extraction.
- 28] Estimation of metal ion by AAS.
- 29] Estimation of metal ion by HPLC.

Note : Any 25 experiments out of the above mentioned list to be performed .

Department of computer science

Career oriented programme in Information and computer technology” under Xth plan of UGC scheme.

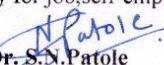

Introduction

In the year 2007 under Xth plan of UGC scheme. The college has offered wide range of career oriented course in various related subjects. The department of computer science runs career oriented programme in “Information and Computer Technology” for science students. The career oriented programme in “Information and Computer Technology” include certificate course having intake capacity of 40 number of students at beginning of each academic session student admitted to these course .This course has separate syllabus of undergraduate level including theory ,practical and project work. The faculty members of computer science department are actively involved in the teaching and learning processes. The certificate issued to the students after successful completion of course.

Objective:-

- To increase the practical skill of students and knowledge about the skill of IT sector, so to make them good developer.
- To educate students from the local and rural area, so they become enlightened individuals, improving the living standards to their families and society.
- To enable the rural student to acquire the self-confidence to lead respectable and prosperous life.
- To introduce career and market oriented ,skill enhancing, add-on courses that has utility for job, self-employment and empowerment of students.

Biotechnology Certificate Course Syllabus

Unit I

1) Basic tools in Biotechnology laboratory

- a) Micropipette
- b) Incubator
- c) Laminar air flow
- d) Autoclave
- e) Deep Freezer
- f) Electrophoresis
- g) pH meter
- h) centrifuge

Unit II

1) Prokaryotic cell and Eukaryotic cell

2) Cell organelles

- a) Nucleus
- b) Nucleolus
- c) Endoplasmic reticulum
- d) Golgi complex
- e) Mitochondria
- f) Chloroplast
- g) Ribosomes
- h) Lysosome
- i) Peroxisome

Unit III

1) Cell Cycle-

- a) Types of cell cycle
- b) Phases of Cell Cycle-
- c) Mitosis (Interphase, Prophase, Metaphse, Anaphase, Telophase and Cytokinesis) and Meosis- (Meosis I and Meosis II)

Unit IV

1) Chromosome morphology-

- a) Karyotype
- b) Chromosome shape types and functions.
- c) Chromosomal Abberation- Numerical – Aneuploidy and Euploidy and Structural – Duplication, deletion, transversion, translocation, inversion.

Unit V

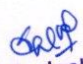

1) Techniques-

- a) ELISA – Direct and sandwith ELISA
- b) DNA fingerprinting
- c) PCR
- d) Artificial / Synthetic seeds

Certificate Course in Communication Skills in English

Department of English

Academic Year - 2018 -19

ANNUAL REPORT

In the academic year 2011-12 under XIth plan of UGC scheme the college has offered wide range of Career Oriented Courses in various related subjects. The department of English runs Career Oriented Programme in Communication Skills in English for Arts faculty students. The Career Oriented Programme in Communication Skills in English includes Certificate Course, Diploma Course and Advanced Diploma Course having intake capacity of 40 students each. At the beginning of each academic session students admitted to these courses. This course has separate syllabus of under graduate level including theory, practical and project work.

Theory and project work classes are regularly conducted in the college. The college has collaboration with our sister branch Shri Shivaji College of Arts, Commerce and Science, Akola. Under this collaboration we send the students to get the practical knowledge about communication skills in English in Language Lab. The faculty members of English department are actively involved in the teaching and learning processes. The certificate issued to the students after successful completion of course.

Objectives -

1. To enable students to acquire proficiency in English with special emphasis on different Linguistic functions of English language.

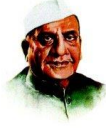

2. To reinforce the various sub skills acquired with reference to reading, writing, listening and speaking.
3. To develop the Linguistic and the Literary competency of students.

In the academic year 2018-19 in all 40 students were admitted for certificate course in communication skills in English. Out of 40 students 20 students appeared for exam. Total 10 students successfully completed the exam. The related record is preserved in the department of English.

**CERTIFICATE COURSE IN
VERMICULTURE**

(2012-2019)

**SHRI. SHIVAJI ART'S, COMMERCE &
SCIENCE COLLEGE, AKOT, DIST. Akola**

Syllabus of certificate course in Vermiculture.

Unit- 1

- 1.1 Introduction to vermiculture and vermicompost.
- 1.2 Systematic position, Habit and Habitat of Earthworm.
- 1.3 External features, shape and size, colouration and distribution of earth worms.
- 1.4 Body segmentation.
- 1.5 Species of earthworm used in vermiculture.
- 1.6 Economic Importance (roles +ve and _ve)

Unit -2

- 2.1 Food and feeding habitats of the earth worms.
- 2.2 Digestive system of earthworm.
- 2.3 Reproduction in Earthworm/
- 2.4 Respiration in Earthworm.

Unit- 3

- 3.1 Earthworm for animal feeds.
- 3.2 Casting of earthworm as a biofertilizer.
- 3.3 Requirements for vermiculture.
- 3.4 Vermicomposting materials used in vermiculture (organic waste)
- 3.5 Cattle dung plant product.

Unit - 4

- 4.1 Preliminary treatment of composting a material.
- 4.2 Vermicomposting material storage.
- 4.3 Preparation of vermiculture bed.
- 4.4 Maintenance of vermiculture bed.
- 4.5 Natural enemies and their control.

Unit- 5

5.1 Composition of vermicompost and worms.

5.2 Harvesting vermicompost and worms.

5.3 Marketing of vermicompost and worms.

5.4 Marketing of seed worms.

5.5 Role of vermicompost as fertilizers in agriculture.

Syllabus (practical)

Part - A

Aim : Identification, classification and comment on .

- 1) To study the external characters of earthworms.
- 2) Study of different species of earthworms.
- 3) Study of different vermiculture material.
- 4) Histological study of
 - A) Gizzard
 - B) Testis
 - C) Ovary
 - D) Spermatheca
 - E) Septal nephridia
- 5) A) Cattle dung
- 6) Plant product
- 7) Agricultural water

Part- B

- Aim : 1) To dissect out Alimentary canal of earth worm.
- 2) Dissection of reproductive system of earth worm.
 - 3) Dissection of nerve ring of the earthworm.
 - 4) Dissection and isolation of
 - a) Septal nephridia.
 - b) Spermatheca.
 - c) Setae.

Part- C

Aim : Permanent micropreparation of

- 1) Spermathecae.
- 2) Septal nephridia.
- 3) Setae.

- 4) Testis.
- 5) Ovary.

Preface

Shri. Shivaji Arts, Commerce and Science College, Akot is one of the reputed institute from Akola District of Maharashtra. This college provides the education at Under Graduate, Post Graduate and Research (Ph.D.) Level. College received the sanction from UGC to introduce certificate courses under Career Oriented Program (COP) on self financed basis. The Department of Zoology launched a Career oriented Program- Vermicomposting In June 2012.

The main objective of the courses is to explore the possibilities with sustainable agriculture practices and various concepts from how to turn all kinds of waste garbage to valuable compost to impart the knowledge of converting the weeds into food of earthworms and preparing vermicompost and more. This course included the several topics on the general characteristics and cultural requirements of worms, substrates, advantages and economics of Vermicomposting, and quality analysis of some vermicompost formulations.

Objective of study

A program made the students self sufficient with professional skills to improve student's employability.

ANUAL REPORT

Year-2015-16

Shri. Shivaji Arts, Commerce and Science College, Akot is one of the reputed institute from Akola District of Maharashtra. This college provides the education at Under Graduate, Post Graduate and Research (Ph.D.) Level. College received the sanction from UGC to introduce certificate courses under Career Oriented Program (COP) on self financed basis. The Department of Zoology launched a Career oriented Program- Vermicomposting In June 2012.

The main objective of the courses is to explore the possibilities with sustainable agriculture practices and various concepts from how to turn all kinds of waste garbage to valuable compost to impart the knowledge of converting the weeds into food of earthworms and preparing vermicompost and more. This course included the several topics on the general characteristics and cultural requirements of worms, substrates, advantages and economics of Vermicomposting, and quality analysis of some vermicompost formulations.

For the course, 40 students were enrolled. All the students successfully completed the program with qualifying the final examination. All the successful students are awarded with the certificate.
