**SYMPOSIUM CUM WORKSHOP ON REARING OF SPIDERS**

Spiders are air-breathing arthropods that have eight legs and chelicerae with fangs able to inject venom. They are the largest order of arachnids and rank seventh in total species diversity among all orders of organisms. Spiders are found worldwide on every continent except for Antarctica, and have become established in nearly every habitat with the exceptions of air and sea colonization.

Spiders are polyphagous and feed on a variety of available prey. They not only prey on adult insect pests but also feed on their eggs and larvae. They help in maintaining the ecosystem balance. Spiders are good friends of farmers as they control all types of pests on the crop. Some spiders make burrow in soil and thus help in water percolation.

Most of the spiders in nature feed on mosquitoes and protect us from Malaria and similar other mosquito borne diseases. The mud wasps, many pollinators, lizards and some birds feed their young ones with spiders as spiders are rich in simple proteins.

Spider silk is the best biomaterial which has several applications- The secretions of spiders are boon for human beings. For example silk. Spider silk has high tensile strength, four to five times more than that of iron. Hence, the recombinant silk produced on large scale is used to manufacture cloth from which bulletproof jackets are manufactured. If spider silk rods of 5mm diameter are used in building construction instead of iron rods, earthquake proof houses can be constructed as silk is elastic. This is the nature's gift which is of great use for the army of any country. Parachute ropes can also be manufactured from spider silk. German scientists have manufactured guitar strings from spider silk.

Surgical threads and bandages can be prepared from the spider silk. This silk is biocompatible with human beings. Most of the birds internally line their nests

**DEPARMENT OF BOTANY**

**Check list of plants of College Campus**

**2015-16**

**Report**

From the very beginning of inception of human beings on the earth, man has relied on plants to fulfill his basic needs for his survival. Plants provide food, shelter and health. It is estimated that about ten million species of plants inhabit the planet earth of which, however only 1.7 million species are known to science. It is therefore the need of the hour to explore the floristic wealth of the earth so as to know what we have. The plant diversity however is under serious threat due to various anthropogenic factors and many plant species are disappearing. Many species are becoming extinct even before their discovery. This scenario necessitates the urgent need of conservation of this diversity. To formulate various strategies for this purpose, the first important step is to explore and inventories the flora. Keeping this perspective in view the present studies were conducted to explore and inventorize the plant species. Therefore an attempt has been made to study the plant species present in the campus. Different Morphological characters are being studied like habit, height, leaf, inflorescence, flowers, and fruits etc representing diversity of plants in the campus of Shri Shivaji Arts, Commerce & Science College, Akot. Floristic diversity can be defined as the variety and variability of plants in a given region. It refers to the number of types or taxa in a given region or group. Floristic diversity can be measured at any level from overall global diversity to ecosystem, community, species, populations, individuals and even to genes within a single individual. The checklist of plants attempts to highlight the diversity of vast plant resources of the college campus.

**प्रसिध्दी पत्रक**  
**मोडीलिपी प्रशिक्षण**

महाराष्ट्रात सुमारे १२ व्या शतकापासून मोडीलिपीची सुरवात झाली, असे इतिहासकारांचे मत आहे. न मोडता, न थांबता, झरझर लिहिली जाणाऱ्या या लिपीस मोडीलिपी असे संबोधण्यात आले. आजच्या स्टेनोग्राफरची जी सांकेतिक लिपी आहे, तशाच प्रकारचे स्वरूप मोडीलिपीतील लिखाणामागे होते. श्री हेमाद्रीपंत हे या मोडीलिपीचे जनक होते. भाषा जरी मराठी असली तरी तिची लिपी ही मोडी असल्याने तिला फार महत्व प्राप्त झाले आणि ह्या मोडीचा सर्रास वापर राजकारभारातून व लोकांच्या दैनंदिन जीवनात २० व्या शतकाच्या अखेरीपर्यंत होत असे. मात्र छपाईच्या दृष्टीने मोडीलिपीची मर्यादा सिमीत झाल्याने कालौघात ही लिपी हळूहळू मागे पडली. राजदरबारातून नव्हेतर व्यवहारी जीवनातूनही मागे पडली. इतकेच नव्हेतर ती हळूहळू मोडीत गेल्यातच जमा झाली.

मोडीलिपीचा प्रवास आणि प्रचार झाला तो शिवकाळापासून. शिवकाळ किंवा पेशवाई काळामध्ये ज्यांचे अक्षर सुरेख असेल त्यांना चिटणीशी पदावर प्राधान्याने नोकरी दिली जात असे. आज आपण या शिवकाळातील व पेशवाई काळातील कागदपत्रावर नजर टाकल्यास त्यातील बहुसंख्य कागदपत्रे ही मोडीलिपीतूनच आहेत, असे दिसून येईल. तसेच आजही अनेक खाजगी संस्थांकडे तसेच शासकीय व निमशासकीय, जिल्हाधिकारी कार्यालय, तहसिलदार कार्यालय, भूमी अभिलेख कार्यालय, नगर पालिका येथील जुने दस्तऐवज मोडीलिपीमध्ये आहेत. यामध्ये प्रामुख्याने जन्म-मृत्यूची नोंद, बोट, खत, इत्यादीचा समावेश आहे. महाराष्ट्र शासनाच्या पुराभिलेखागारातील पुणे पुरालेखागाराचे उदाहरण द्यावयाचे झाले तर या ठिकाणी पेशवे दप्तरातील १५९० पासूनचे मोडीलिपीतील अभिलेख ठेवण्यात आलेले आहेत. या पुणे पुरालेखागाराचे वैशिष्ट्ये सांगायचे झाल्यास, एका लिपीतील, एका भाषेतील, एका राजवटीतील व एका राज्याच्या इतिहासाची माहिती सांगणारी सन १५९० ते १८६५ म्हणजे सुमारे २५० वर्षांची ऐतिहासिक मोडीलिपीतील कागदपत्रे इतिहास संशोधकांची प्रतीक्षा करीत आहेत. अशा प्रकारची व मोठ्या संख्येची कागदपत्रे अन्यत्र दुसरीकडे कोठेही आढळून येत नाही.

या शिवाय कोल्हापूर पुरालेखागार, मुंबई पुरालेखागार या ठिकाणी लाखोच्या संख्येने कागदपत्रे जतन करून ठेवण्यात आलेली आहेत. मात्र आजच्या स्थितीत मोडी जाणकार किंवा मोडीलिपीतील अभिलेखांचे वाचन करणारे अत्यंत अल्प असल्याने या दस्तऐवजांचे वाचन होत नाही. महाराष्ट्र शासनाच्या पुराभिलेखागारातील कर्मचारी हे काम करीत असले तरी इतर शासकीय कार्यालयातील या दस्तऐवजांचे अधिकृतपणे वाचन होत नाही, ही वस्तुस्थिती आहे. जुने जाणकार वाचन करणारे आता कुणी उपलब्ध होऊ शकत नाही. ही वस्तुस्थिती असल्याने सर्वसाधारण नागरीकांची या शासन दरबारी हक्काची कागदपत्रे असूनही त्यांच्या हिताचे संरक्षण होऊ शकत नाही. एखाद्या दुसऱ्याने या मोडीलिपीतील कागदपत्रांचे वाचन लिप्यंतर जरी केले तरी त्यास अधिकृत मान्यता मिळण्यास फार अडचणी येतात. ही सर्व परिस्थिती लक्षात घेऊन एकीकडे अभिलेखागारातील मोडी कागदपत्रांचे वाचन व्हावे, इतिहास संशोधनास प्रोत्साहन मिळावे. तसेच शासकीय कार्यालयात नोंदी असलेल्या मोडीलिपीतील कागदपत्रांचे अधिकृतपणे वाचन व्हावे म्हणून, महाराष्ट्र शासनाच्या पुराभिलेख संचालनालयाने मोडीलिपी प्रशिक्षण वर्गाचा उपक्रम हाती घेतलेला आहे. यासाठी अकोला जिल्ह्यातील अकोट येथे पुराभिलेख संचालनालयाकडून मोडीलिपीचे प्रशिक्षण वर्ग सुरू करण्यात येत आहेत. सदर प्रशिक्षण वर्गात शासकीय कर्मचारी, इतिहासाचे अभ्यासक तसेच इतिहासप्रेमी नागरीक यामध्ये सहभागी होऊ शकतील.

**Workshop on Recycle Paper Bag 2018-19**

**Report**

**2018-2019**

Department of Chemistry Shri Shivaji Art's, Commerce and Science College, Akot organized one day workshop on "Recycle Paper Bags" on 2<sup>nd</sup> November 2018 at 10.00 am to 4.00 pm for college Students at the college auditorium,. Lamp lighting of Workshop was done by all the respected dignitaries. The programme was started with a welcome speech by Dr S.P.Wagh Head of science faculty. Guest were formally welcomed and introduced by H.O.D. The programme was inaugurated by the chief guest Mrs. Dr. S.N. Gupta Associate Professor, Brijlal Biyani Science College, Amravati and the workshop is chaired by Dr A.L.Kulat Principal of the college.

In inaugural speech she said Paper bags are gaining importance as these bags are 100% reusable, recyclable and biodegradable and at the same time environment friendly and pose less threat to wildlife. It requires less energy for paper bags to be recycled than plastic bags. The paper bags are generally box-shaped in design that allows them to stand upright and hold more goods.

In the recent past, Maharashtra state governments have banned the use of plastic. But this rule is of no use unless it is implemented by everyone, especially college students, who are the future. By incorporating the habit of using paper bags instead of plastic, will help students follow eco-friendly habits for life. To effectively implement this habit of using paper bags instead of plastic bags, among college students, so, college has organize a 'Paper bag making activity' .

Dr S N.Gupta and Miss Roshani Kale provided training to students on how to make paper bags. She gave information about the quantity of paper used and paper bag market demand and how it can be seen as a new business opportunity. The participants were delighted with this session as they were able to understand the importance of this campaign and also were able to look at a new business opportunity for themselves.

Around 171 Students were participated in workshop and eight faculty members learned how to make paper bags using news papers .With the help of newspapers and colored plain paper, she taught the students to make 3D paper bags. The bag was made out of the newspapers while the designs included beautiful flowers and whimsical butterflies made out of colored plain paper pasted on the bag using Camlin White Glue.

This activity was appreciated by the IQAC / teachers and even saw the teachers' active participation. Through this activity, we also highlighted that 'today's news paper is tomorrow's waste paper'.

For the success of workshop Dr S. V. Kolhe, Mr. A. R. Somvanshi, Mr. Ganesh Andhale, Ku. Shital Raibole, Ku. Trupti Chaure, Ku. Alka Puri and non-teaching staff members and students have taken ceaseless efforts.

#### PERCEPTION OF THE 6<sup>TH</sup> SHIVAJI VIDNYAN PARISHAD

Teaching science at school level has always been considered as the most difficult and challenging task. Science teachers are widely loved and respected by students as their teaching instils high degree of idealism, passion and verification of all the things taught in the classroom. Many of them do not limit themselves to just imparting knowledge but also shape the values and ideals of students by leaving a deep impact on our society. Every teacher has a unique way of teaching and achieving success in terms of either ability of the students to recite the subject during evaluation or the pleasure of learning and accumulation of knowledge for entire life. While introducing a subject in the classroom, those teachers who adopt different ways other than conventional chalk and board approach, will definitely leave an everlasting impression in the mind of their pupils. Such unconventional method of teaching should be explored and shared with all the teachers to make learning a fun-filled and exceptional experience.

The Shivaji Vidnyan Parishad has been conceptualised with an objective to inspire science teachers in schools from Maharashtra. Through extensive exchange of thoughts and experiences through the dialogues in 3 days, we aim to ignite the spirit of all the teachers who are committed towards building next generation of this nation. It is envisaged that every participant's teacher will play an important role while sharing his/her experiences with his/her contemporaries from the teaching fraternity.
